

Christophe Delcourt

Furniture and Lighting

The designer Christophe Delcourt opened his first Paris studio in 1988 and has been carefully adding to and editing his catalogue of furniture and lighting designs ever since. Having trained in theatre design, he brings a precise vision to all the pieces produced in his own workshops.

“Perfection and functionality is our objective. Wood, ceramic, metal, sensual fabrics, sophisticated materials and finishes” inseparable from his characteristic clean lines.

Understated, subtle, and beautifully made, the collection is widely admired, many of the pieces already having passed into the realm of design classics.

The furniture collection includes an extensive range of tables, desks, chairs, sofas, bookcases and cabinets.

The full catalogues are available to view at Willer.

Projects and bespoke:

Christophe Delcourt is also well known for his interior architecture and design projects, for both public (hotels, restaurants, retail) and private spaces.

He often designs bespoke furniture and lighting for these projects and plans to continue to create very special unique pieces for periodic exhibitions, as he recently did so successfully for the first time.

Willer are also able to discuss and facilitate commissions for bespoke Christophe Delcourt pieces.
